

BUSINESS - ACCOUNTING, ASSOCIATE IN SCIENCE

The Associate in Science degree in Accounting prepares students to contribute to a business with solid foundational accounting skills, coupled with the breadth of MPC's general education requirements. The Business-Accounting/Bookkeeping Certificate of Achievement and the Business-Accounting Certificate of Achievement must both be completed before or as part of this degree. Students planning to transfer to a university to earn a Bachelor's degree should consider the Associate in Science for Transfer degree (AS-T) in Business Administration.

Learning Outcomes

Upon successful completion of the program, students will be able to:

- Apply generally accepted accounting principles and accounting fundamentals to complete the accounting cycle using both manual and computerized systems.
- Prepare basic financial statements using manual and computerized systems.
- Perform keyboarding skills with speed and accuracy.
- Process and communicate accounting information using integrated office applications software.
- Analyze, interpret, and communicate financial information.
- Apply basic mathematical analysis methods to understand, analyze and evaluate business activities.
- Interpret a variety of aspects of the business environment within which accounting operates to be able to make sound decisions balancing the needs of multiple stakeholders.
- Quantitatively analyze and select business strategies, plan for business performance, and evaluate internal business unit performance.
- Analyze and evaluate complex issues or problems, draw reasoned conclusions and/or generate solutions, and effectively communicate their results.
