

FASHION DESIGN AND MERCHANDISING, ASSOCIATE IN SCIENCE

The Fashion Design and Merchandising Associate in Science degree emphasizes the basic principles of design, product development, and the fashion business. The program offers insight to students interested in fashion design and merchandising. It is ideal for those who want to transfer to a university with a fashion design and merchandising program to pursue a career in the global fashion industry.

Learning Outcomes

Upon successful completion of the program, students will be able to:

- Describe and evaluate social and ethical values in their cultural and historical contexts relevant to fashion.
- Analyze textiles and be able to make appropriate choices for various textile products.
- Use correct terminology for style, construction and production of clothing.
- Identify the skills and abilities relevant to careers in fashion merchandising.
