

# JEWELRY AND METAL ARTS, ASSOCIATE IN ARTS

Through this comprehensive program of study for metal arts and jewelry making, students learn a wide range of historical and contemporary techniques. They hone their technical skills through practice, resulting in a well-rounded body of work that demonstrates proficiency at a level required for commercial pursuits.

## Learning Outcomes

Upon successful completion of the program, students will be able to:

- Make individualized works of jewelry and metal arts that convey personal expression.
- Demonstrate critical thinking and problem solving skills related to planning and fabricating jewelry and/or metal art sculpture.
- Identify and research historical and cultural objects as inspiration for jewelry and metal art designs.
- Present a cohesive body of work for critique and display at public venues.
