

# MATHEMATICS, ASSOCIATE IN SCIENCE FOR TRANSFER

Reading and Writing, Mathematics, Information Competency, and General Education requirements.

The Associate in Science in Mathematics for Transfer (AS-T in Mathematics) degree program provides students with sufficient understanding of mathematical concepts, skills, and applications to transfer seamlessly into the California State University system and attain upper-division status, majoring in mathematics, physics, engineering, or computer science. Successful completion of AS-T in Mathematics degree guarantees student acceptance to a CSU (but does not guarantee acceptance to a particular campus or major) to pursue a baccalaureate degree in mathematics or related major, in preparation to pursue a career in the field of mathematics, engineering, statistics, actuarial science, business and management, law enforcement, government, and education. Students must complete the Associate Degree for Transfer requirements to earn the AS-T degree.

## Learning Outcomes

Upon successful completion of the program, students will be able to:

- Solve problems using mathematical symbols, operations, and techniques.
- Construct mathematical models of physical problems, draw conclusions from these models, and communicate their conclusions.
- Formulate, test, and prove mathematical conjectures.
