

ART PHOTOGRAPHY, ASSOCIATE IN ARTS DEGREE

requirements including Information Competency, and General Education requirements.

The Photography program is committed to a broad definition of photography as a lens-based medium open to various expressive means. Students who complete the AA in Photography will apply technical and aesthetic principles of photography in working with black-and-white laboratory techniques, using digital cameras and software, evaluating and analyzing photographs, using compositional skills, developing a portfolio, and collaborating. Photography majors will be prepared for an entry-level position in photography, transfer to a four-year Fine Arts program, and/or a career related to fine art photography.

Learning Outcomes

Upon successful completion of the program, students will be able to:

- Control and manipulate light, depth of field, and motion.
- Create prints from film or digital sources and control print contrast, tonal range, and color.
- Articulate the meaning of photographs and explain how meaning is visually communicated.
- Create a cohesive body of exhibition quality work that collectively explores an idea or concept and be able to explain the significance of subject, form, presentation, and meaning.
- Analyze and interpret human thought, achievement, and expression relevant to such branches of knowledge as philosophy, literature, and/or the fine and performing arts, and to communicate the results.

Associate in Arts Degree Major Requirements

Code	Title	Units
Required Core
