

# TRANSLATION AND INTERPRETATION (SPANISH/ENGLISH), CERTIFICATE OF ACHIEVEMENT

The Translation and Interpretation (Spanish/English) Certificate of Achievement provides proper bilingual skills training. Students learn about careers that employ bilingual skills and how to provide interpreting and translating services for a variety of industries including business, medical, education, and government. Bilingual employment requires language proficiency in both Spanish and English (written and verbal), knowledge of industry terminology, technology skills for in-person and remote services, customer service skills, and an understanding of cultural and social communication.

Upon successful completion of the program, students will be able to:

- Translate texts from English to Spanish, and from Spanish to English, and identify grammatical differences between English and Spanish.
- Apply the appropriate use of translation and interpretation in various settings and identify the responsibilities of interpreters and translators related to conduct, civic duties, and code of ethics.
- Identify career opportunities in the fields of translation, interpretation, and localization, and the requirements to succeed in these and related careers.
- Use the two languages, English and Spanish, to investigate the relationship between the products a culture produces, the practices a culture manifests, and the perspectives that underlie them.
- Explain localization and the translation profession with a philosophical understanding of the fact that the English language and the Anglo culture are not the only standards of meaning and value in the United States and the world.
- Describe the importance of the role of localization in linguistic and cultural retention as opposed to linguistic discrimination, assimilation, and oppression.
- Investigate and analyze different local and global manifestations of language and culture as completely valid, as well as explain the basics of linguistic rights, the importance of retaining unique cultural markers of language, and the linguistic and cultural complexities of language in context.

## Certificate of Achievement Requirements
